

HI 9600

Clinical Medical Specialist

32 weeks
DURATION

High School Diploma or GED

REQUIREMENTS

PROGRAM DETAILS

This program is recommended for those who want to work directly alongside patients in a clinical medical environment. Graduates of this program differentiate themselves from the field of Medical Assistants by completing comprehensive course in Phlebotomy, creating a path for the Medical Assistant to perform advanced job roles that can lead to greater marketability and earning power.

Because today's medical assistant will be called upon to perform a variety of clinical and administrative duties, this program covers a wide range of skills and objectives that expand beyond the routine functions of a Medical Assistant. Chief among these expanded responsibilities are tasks related to and around the practice of Phlebotomy. This program contains a course specifically designed to prepare students with the knowledge and skills necessary to perform blood draws, collect and handle blood and non-blood specimens and maintain a safe clinical environment.

Upon completion of this program, students will have met the training requirements to sit for the Certified Clinical Medical Assistant (CCMA) exam, and the Certified Medical Administrative Assistant (CMAA) exam, both of which are sponsored by the National Healthcareer Association (NHA). Additionally, students will have completed the training requirements relevant to the Certified Phlebotomy Technician (CPT) certification sponsored by the NHA. Once hired as a Medical Assistant, the student can complete the required 30 successful venipunctures and 10 successful capillary sticks that are necessary to attempt the Phlebotomy certification exam.

COURSES

- PS 1011 Professionalism in Allied Health
- HI 1014 Human Anatomy and Medical Terminology
- HI 1011 Medical Office Procedures and Administration
- HI 6010 Clinical Medical Assisting
- HI 6011 Phlebotomy

AT THE END OF THIS PROGRAM, YOU WILL BE ABLE TO:

-  Understand basic human anatomy and utilize medical terminology and responsible communication in the healthcare facility
-  Comply with HIPAA/HITECH, OSHA, CMS and other healthcare regulations and laws as they apply to patient information
-  Comprehend the use of Diagnosis and Procedure codes and employ Electronic Health Records and related Practice Management
-  Perform Phlebotomy and laboratory procedures

ATTAINABLE CAREERS

- | | |
|--------------------------------------|--------------------------------|
| Certified Clinical Medical Assistant | Medical Office Assistant |
| Chiropractor Assistant | Clinical Laboratory Technician |
| Clinical Assistant | Optometric Technician |
| Doctor's Assistant | Medical Assistant |

TARGET CERTIFICATIONS

- CCMA** Certified Clinical Medical Assistant
- CMAA** Certified Medical Administrative Assistant
- CPT** Certified Phlebotomy Technician

As a MedCerts Student, you also have the added benefit of Job Search Assistance including guidance with resume building, networking, interviewing, and job search tips.

****PLEASE NOTE:** This program is NOT available to students who plan to work in the state of Washington. Students in the state of California ARE eligible for this program, as the primary certification is CCMA (Medical Assistant). However, this program does not meet California's phlebotomy requirements and students will need additional qualifications to obtain the CPT certification. This MedCerts program is aligned with and/or prepares candidates for certification or licensure in all other states.
