IT 2100
PC Technician

12 weeks
DURATION

ISSUING AUTHORITY

CompTIA A+

High School Diploma or GED
REQUIREMENTS

PROGRAM DETAILS

This program provides comprehensive training to prepare you for the two exams that make up the CompTIA A+ Core Series: Core 1 and Core 2. You will gain the skills and knowledge necessary to perform the following tasks on personal computer hardware and operating systems: installation, PC building, system upgrades, repair, system configuration, troubleshooting, problem diagnosis, and preventative maintenance. Upon completion of this program, you will be prepared for international, vendor–neutral certification in a growing and in–demand field.

Our 12-week program is delivered via Remote Mentored Learning (RML). You can view the video content from anywhere with high speed internet connection, and have access to an Online Mentor, who provides ongoing support throughout the program. This program is designed to be completed within a prescribed amount of time, with responsibilities for each course thoroughly outlined in order to pace the program effectively.

Upon completion of the PC Technician program, you will have exam prep, with one of our subject matter specialists, for both A+ Certification exams. Each exam prep will take 4-6 weeks to complete.

AT THE END OF THIS PROGRAM, YOU WILL BE ABLE TO:

- Understand the fundamentals of computer technology, networking, and IT security
- Understand operating system (OS) functionality and troubleshooting methodology
- Identify hardware, peripheral, networking, and security components
- Know how to perform proper computer safety procedures and best practices
- Install, configure, upgrade and maintain PC workstations, the Windows OS, and SOHO networks
